

## In the Oil Fields

CONTINUED FROM PRECEDING PAGE.

## South of Dayton.

The Dayton Oil & Gas Co. has a rig up for a test on the town lot located in the center of the east line of the northwest of the southeast of 7-13-15.

The Oklahoma Producing & Refining Co. is spudding in its test on the 41. P. Nelson farm in the northeast corner of the southeast of the northeast of 7-13-15.

## West of Beggs.

The Livingston No. 1, offsetting on the south the Giverson well and located in 35-13-11 is making 25 barrels an hour at 19 feet in the sand. Their No. 3 is due about Monday or Tuesday and the No. 2 which offsets the Giverson No. 2 is drilling at 2,290.

## General Miller Retires.

General Miller, who for many years has been head of the Galena Signal Oil company, has resigned and Joe C. Smith, president of the Texas company, has been elected in his place. The general has doubtless earned a long vacation, which he is now taking.

## At Morris.

Charles A. Huber is drilling at 600 feet on his Lacy Mica farm test in the southeast corner of the southwest of the northwest of 30-13-14.

The Test Oil company No. 2 on the Lacey-More farm in the northeast corner of the northwest of the southwest of 30-13-14 is a rig.

## Shot Hoped a Lot.

The Middle States Petroleum company well in 30-13-14 is now making 20 barrels as the result of a shot of 20 quarts. It seems that this part of the country is very much the same as the country around Sallis, Texas, where frequently a shot makes a 500-barrel well out of a dry hole.

## In the Deage.

The W. B. Sanford Oil & Gas company has a 150-barrel producer in their No. 2 well, in the northwest of the southeast of section 14-25-11.

## North of Dewey.

The Gypsy Oil company has made a location and is moving in 400 feet south of the northeast corner of the northwest of 17-14-8 on the E. Kersey farm.

## In the Duncan and Walters District.

Harry Parker drilled in a 2,000-gallon well in the 2-13-10 to 2-14-10 sand in his Marx farm test in the center of the southwest of the northeast of 6-24-10.

The Gladstone Oil company is rigging up for a test on the Freeman farm in the northeast corner of the northwest of the southeast of 5-24-10.

The Walker Valley Oil company is drilling at about 100 feet on their Patterson farm test in the southeast corner of the southeast of the northeast of 4-24-10.

John Keys is moving in tools for a test on the Sanders farm in the southwest corner of the southeast of the northwest of 3-24-10.

The Chapman & McFarlin test on the Priddy farm in the center of the west line of the southwest of the northwest of 3-24-10 is a 30-barrel well.

The same company No. 4 on the same farm, but located at the center of the east line of the southwest of the southwest of 3-24-10 flowed 140

barrels the first 24 hours from sand found from 2,187 to 2,209 feet.

Sanders and others have 15,000-gallon test of gas in the 2,200 to 2,228-foot pay and a showing of oil in the 2,174 to 2,178-foot sand in their Sanders No. 3 located in the north-west corner of the southwest of the northwest of 3-24-10.

The same firm is rigging up on No. 5 on that farm in the northwest corner of the southwest of the northwest of 3-24-10.

The Tulsa State Oil company is building a standard rig for No. 1 on the 1920-21 farm in the center of the northwest quarter of 24-25-10.

The Carter Oil company No. 1 is located in the northeast corner of the northwest of 24-25-10 is a location.

The Central Oil & Refining Co. is drilling at 1,450 feet on their Mar-Bu farm test in the northeast corner of the northwest of the southwest of 20-13-20.

OKMUGEE—The Producers & Refiners Corp. No. 1 Nancy Moore located in the southeast corner of the southwest of the southeast of 2-14-11 is equipped at 500 barrels natural but is also reported to be making considerable water in the 2,440 to 2,457-foot pay.

The Carter Oil company No. 2 Mcintosh in the northeast corner of the northwest of the southeast of 2-13-11 is a rig.

J. W. Moore and others have a rig up to offset the Prairie Oil & Gas Co. good well. It is located on the E. James farm in the extreme southeast corner of the southeast of 3-12-11.

John Langeman and others have a dry hole at 2,542 feet and are abandoning their test on the L. E. McKenna farm in the northeast corner of the southwest of the northeast of 11-13-11.

Kimbley and others have a rig up for a test on the 1 Grayson farm in the northeast corner of the southwest of 15-12-11.

W. B. Bassett and others are rigging up on their A. P. Freeman test in the northwest corner of the northwest of the northeast of 17-13-11.

## IN THE YOUNGSTOWN POOL.

F. A. Young et al. have a rig up for a test on the A. Asbury farm in the southwest corner of the northwest of 10-14-12.

H. C. Coon et al. have a 15-barrel well in the 1,468 to 1,480-foot pay in their No. 1 E. Edwards in the southwest of the southwest of 24-14-12.

The Barbara Oil Co. is rigging up on their Glenn farm test in the center of the north half of the northeast quarter of 31-14-12. The same company No. 10 Starr, located in the center of the west line of the northeast of the southeast of 31-14-12, is drilling at 700 feet. No. 11 on the same farm is a rig.

W. B. Pine et al. are drilling at 1,600 feet on their No. 12 Hutton in the center of the east line of the northeast of the southwest of 27-14-13.

SOUTH OF HASKELL—L. J. Bradstreet & Hull have a failure in the 2,200-foot sand in their No. 2 Morris, located in the southeast corner of the northeast of the northwest quarter of 31-15-15.

Edna Pringle Oil Co. has a 20-barrel well in the 1,229 to 1,247 pay and the 1,254 to 1,264 foot sand in their No. 1 Grayson, in the center of

the northeast of the southeast of 24-15-15.

Olsen Petroleum Co. is rigging up on their No. 1 Grayson, located in the center of the north line of the northwest of the southeast of 24-15-15.

The No. 1 oil Co. have a duster at the 1,750-foot level in their No. 1 Barber in the northeast corner of the southeast of the southwest of 24-15-15.

A. Hicks et al. have a rig up for a test on the Vandewater farm in the southwest corner of the northwest of the southwest of 23-15-15.

HENRYETTA DISTRICT—The Humble Oil & Refining Co. has a rig on the ground for No. 1 on the Jacobs farm in the southeast corner of the northeast of the northeast of 6-11-12.

The Kusa Speller company has 4,000,000 feet of gas in their test on the O. W. Irwin property in the center of the west line of the southwest of the southeast of 9-11-14. The sand was topped at 1,335 to 1,410 feet.

The same company No. 3 on that farm located at the center of the southwest of the southeast of 9-11-14 is also good for 4,000,000 feet of gas at 1,365 feet.

OKMUGEE WEST—W. C. Mee et al. have a rig up for a test on the A. T. Williams farm in the northwest corner of the southwest of 14-14-11. The same firm is rigging up to drill No. 2 on the M. Doyle farm in the center of the northeast of the southeast of 24-13-11.

Curtis, Aiken et al. have a 350-barrel well, natural, in their No. 4 Henry located in the southeast corner of the northeast of the southeast of 30-14-11. The sand is rigging up to drill No. 5 on the same farm.

IN THE YAHOLA DISTRICT—Conroy River Gas Co. No. 2 Mcintosh, located in the center of the north half of the northwest of the northeast of 20-15-16, is good for 500,000 gas at 1,323 to 1,333 feet. This was an old well drilled deeper.

Jack Summers has a 1,000,000-gallon in his Howard farm test in the northeast corner of the southeast of the northeast of 29-15-16. The pay was found from 700 to 710 feet.

SCHULTER—W. C. Newman has a rig up for No. 4 Grayson located in the southwest corner of the northeast of the southeast of 21-12-12.

The Mitchell Oil company No. 18 Randall in the northwest corner of the northeast of the northwest of 29-12-12 is a rig.

SOUTHWESTERN OKLAHOMA—The Cosden Oil & Gas Co. is drilling at 750 feet on their Koss farm test in the southeast corner of the southeast of the northwest of 15-24-15.

POTEAU—The Le Flore Gas & Electric Co. has a duster in the 2,000-foot sand and will abandon their No. 1 Hughes located in the center of the west line of the southwest of the southeast of 22-14-26.

AT COWETA—Bateman et al. are rigging up on a machine for a test on the Lowery farm, in the center of the north line of the northwest of the northeast of 65-16-15.

WAGONER—J. P. Voelkel has a 5-barrel well at 415 to 425 feet in his No. 2 Marlow in the southwest

## Personals

Sergeant Maj. R. H. McFulloch has returned home and is displaying an honorable discharge which he received at Fort Bliss on Thursday, Wednesday, March 1, 1919.

Mike Keating, one of the well known oil miners from Pennsylvania, is reported to be critically ill and in a dying condition at Mineral Wells, Texas.

W. L. Singler of the Standard Construction company left Friday for St. Louis on a short business trip.

J. W. Dixon of Wichita is in the city looking after business interests.

R. C. Canary of Caney, Kan., is in the city in conference with Arthur Springer, his business partner, and will doubtless move to Tulsa shortly. He will meet a warm welcome here.

## REPUBLICANS IN MAJORITY UNSEAT DEMOCRAT IN HOUSE

WASHINGTON, March 1.—Republicans of the house found themselves in the majority late tonight and after a bitter debate by a strict party vote of 182 to 171, unseated Representative Zebulon Weaver, democrat, of the 10th North Carolina district, in favor of James J. Britt, republican.

There was much parliamentary maneuvering by the democrats to prevent final vote on the contest but they lost. Britt will hold his seat only two days, but the victory gives his party and lawmakers for the full term. The contest was over the 1916 election. Weaver was elected to succeed himself last fall.

## BALFOUR SAYS COURSE OF U. S. IS WATCHED

PARIS, March 1.—Speaking to the British correspondence tonight, Arthur J. Balfour, British secretary for foreign affairs said:

"By the end of March we shall at least be in sight of a preliminary peace, which will be the greatest stride towards universal peace. As a representative of the British government I am in position to say that what is going on in America at this moment is more important for the success of a general peace than what is being done in Paris today."

Mr. Balfour added that the league of nations would not attain its fullest fruit unless the United States took an even share in the great tasks after the peace.

Two Aided Germans.

NEW YORK, March 1.—Charged with conspiring in 1914 with Captain Hans Roeding of the German general staff, now a prisoner in England, to obtain for him a fraudulent American passport under the name of Julius Thruscher, deceased, Carl T. Thomas and Max Wyner of this city were arrested today and held in \$25,000 bonds each by Federal Judge Learned Hand.

## Home Builders

THE RETURN TO PEACE, PROSPERITY AND THE PURSUIT of happiness needs no safer, surer barometer than the real estate activity of a community.

HOME TIES ARE BEING CEMENTED, business enterprise is alert—on every hand is vast evidence of a continuation of the growth of Tulsa.

WE ARE ALERT TO THE POSSIBILITIES and invite your early consideration of our special offering.

## HILLCREST ADDITION

with its beautiful home-sites, paved streets, water and sewer, its high altitude, low prices and reasonable restrictions offers the best proposition to the home builder in the city.

## A FREE TRIP TO COLORADO

If we fail to prove every assertion we make regarding The Blue Flag Gold Mining Company and their five wonderful properties in Colorado, California, Arizona, and Idaho. You take the word of speculators and invest your money in wildcat oil stocks, where your chances are a 1,000 to 1 shot, or even greater. Then, why do you hesitate to invest in a real, high-class proposition; one with real assets, 100,000 tons of ore in sight and NO CHANCE of a dry hole?

When you buy Blue Flag stock there is ABSOLUTELY NO CHANCE of a dry hole

Below we reprint an article that appeared in the Daily Oil Record this week in regard to "wildcat oil stock." That is just what we told you last Sunday. You are putting your money in the hands of speculators and gamblers and some don't even drill. You put your money in the hands of speculators and gamblers and some don't even drill. You put your money in the hands of speculators and gamblers and some don't even drill.

## Get Rich-Quick Business

The reason why the governing board of the New York stock exchange refused for many years to list mining securities of any kind was that the get-rich-quick artists, the fakers and the grafters, promoted so many fake companies that it was impossible to tell the sheep from the goats. Another reason was that the hazards of the mining industry, whether it be gold, silver, copper, oil, or any other mineral, were so great that the exchange would not put the seal of its approval on the stock because such approval would be a guarantee of merit. It was only when the companies of the country engaged in the production of oil engaged also in the refining and transportation business and had an established and assured income and investment did the governing board list any oil securities at all and even then only a few.

Pick up any Texas paper now and look at the advertisements of cheap stock. Look at the notices of the organizations of stock exchanges with hundreds of companies on the list. Look at the crowds standing around these exchanges, poor care-worn gamblers taking the unsupervised word of some alien broker who has no fixed habitation and placing their little savings on something they know nothing about. They are as lambs led to the slaughter. They still believe in fairy tales and the fairy tales of fortunes made while you wait.

Some of these days the public will wake up to the fact that the oil business is about the most hazardous thing on earth. When you hit it you may make something, but when you miss it you lose it all. Did you ever go to a race track and see the lucky boys cashing the tickets on the winning horse, and then go behind the grandstand and watch the disappointed ones tearing up the losing tickets and searching their pockets for money enough to pay street car fare back to town? The oil business is just like that. One man makes a

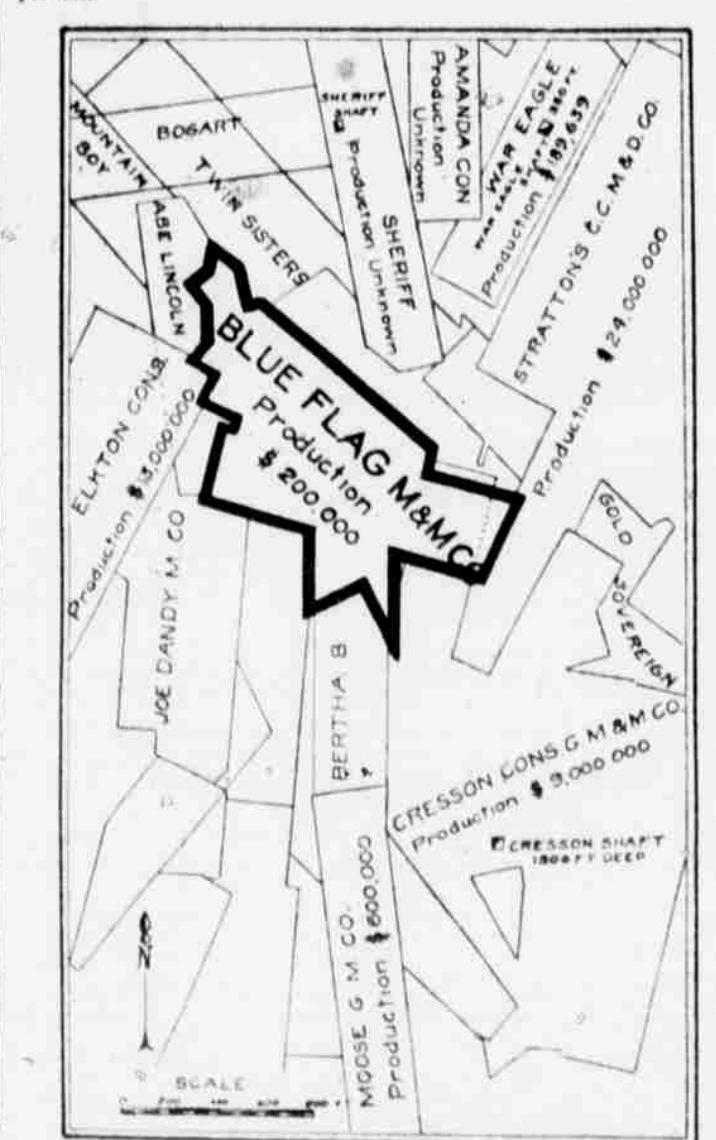

killing where a thousand lose their all. You can count the millionaires in the oil industry in Oklahoma on the fingers of two hands, but you could not count without a string of seven figures those who have lost.

The public, the man or the woman or the administrator of the promoter is taking no risk. This is instanced in an authentic case which was brought to the attention of The Daily Oil Record the other day. A man went to Burk Burnett and wanted a lease. The lease brokers asked him where he wanted it. He said he did not care so long as he could not lose it. That was in the Burk Burnett district. Then he got an option on 40 acres 20 miles from anywhere and went to Dallas, incorporated a company and, with the aid of a few boosters, sold \$200,000 worth of stock in two hours and got the money for it. He agreed to pay \$25,000 for the lease. So that he cleaned up \$175,000 in two days. What does it matter to him whether the lease is good or not? It now belongs to the other fellows.

In the case of the get-rich-quick concerns there are districts in Texas where it costs nearly \$100,000 to drill and equip a well, to say nothing of the cost of the lease, so that a corporation incorporated for \$1,000,000 which calls the stock at 10 cents a share is broke if the first well is a dry hole, and it is generally that way, because the fly-by-nights have not the money to pay for inside leases where there is a medium of a chance for a well. So that the stockholders get the worst of it.

There should be a law when a state permits a charter to issue, and thereby gives it a tone of respectability, there should be good and sufficient evidence that the capital stock is paid in or at least 25 per cent paid in.

Below is a claim map showing the location of the Raven Hill property of the Blue Flag Gold Mining Company. We are located in the very geographical center of the Cripple Creek district; also note the famous mines adjoining our property, then note what the Cresson has paid in dividends, over 100 per cent a year for the past 25 years, and Mr. Shepherd, superintendent of the Cresson, says: "Your mine is equally as good or even better with the same development." The Stratton property is famous the world over. This is only one of our five great properties, however, more fully developed. The Cresson is taking out ore within 300 feet of our line that assays have shown \$100,000 per ton.

## What a Thousand Dollars Has Done in Mining

\$1,000 invested in the Portland Gold Mining Company since 1895 has paid \$15,000.

\$1,000 invested in the Golden Cycle since 1895 has paid \$20,000.

\$1,000 invested in the Vindicator Consolidated since 1895 has paid \$12,000.

\$1,000 invested in the Gold Coin since 1895 has paid \$18,000.

\$1,000 invested in the Cresson Consolidated M. & M. Company since 1895 has paid \$25,000.

\$1,000 invested in the Elkton Consolidated Gold Mining Company since 1895 has paid \$6,250.

\$1,000 invested in the Wellington Mining Company since 1912 has paid \$2,400.

\$1,000 invested in Farncomb Hill previous to above date has paid \$50,000.

The Blue Flag Gold Mining Company's properties are situated in the midst of above properties and will certainly do as well. We think better.

## Blue Flag Properties

Blue Flag or Raven Hill mine, Cripple Creek, Col.; Larum mine, Breckenridge, Col.; Yellow Jacket Placer, near Salmon City, Idaho; January, Patagonia, Ariz.; Panamint, near Ballarat, Cal.

ASSETS OVER \$3,000,000.

TWO DEVELOPED MINES.

TWO FULLY EQUIPPED MILLS.

THREE PARTIALLY DEVELOPED MINES.

100,000 TONS OF ORE BLOCKED OUT AND IN SIGHT.

AVERAGE ORE VALUES ASSAY \$111 TO \$208 PER TON.

## Our Guarantee

We hereby agree with any party, or any group buying as much as \$5,000 worth of this stock, to reimburse them for their expense in making an investigation, furthermore, to reimburse all expense to any one investigating and not finding everything as represented by us or the president of the Blue Flag Gold Mining Company.

A. L. HOLTOM & COMPANY  
BLUE FLAG GOLD MINING COMPANY

## MINE INVESTMENT BEST, SAYS EXPERT

(Rocky Mountain News.)

CRIPPLE CREEK, Col., Jan. 11.—With the payment of the dividend by the Vindicator Consolidated Gold Mining Company, on Saturday, January 25, Cripple Creek mining companies will have distributed \$245,000 during the present month.

The four companies contributing to this total are the Cresson Consolidated Gold Mining & Milling Co., the Portland Gold Mining Company, the Golden Cycle Mining & Reduction Co., and the Vindicator Consolidated Gold Mining Company. These four companies with the Janu-

ary disbursements made, will have paid no less than \$31,139,492.86 in dividends, as follows: Portland Gold Mining Company, \$11,112,000; Golden Cycle Mining & Reduction Co., \$8,763,300; Cresson Consolidated Gold Mining & Milling Co., \$7,721,142.50; Vindicator Consolidated Gold Mining Company, \$3,542,500.

CRIPPLE CREEK MINES MAKE BIG DISBURSEMENT

CRIPPLE CREEK, Col., Jan. 11.—Operations have been resumed at the main shaft of the Blue Flag Gold Mining Company, on Raven Hill, and sinking is to be carried on until a depth of 1,400 feet is attained. The present depth of the shaft is 1,227 feet. It is also planned to raise through from the 1,100-foot level to the 800-foot level, thus insuring the thorough ventilation of the mine while prospecting unexplored territory. The Blue Flag company also owns valuable acreage in the Breckenridge mining district and is driving its Larum tunnel an additional 300 feet to a point 1,400 feet from the portal, where drilling values of from \$5,000 to \$1,000 per ton has been found.

Shaft Will Be Sunk to Depth of 1,400 Feet.
